

Grow Your Multi-Brand Service Center with Bigfix

A partner program for multi-brand repair shops to receive B2B insurance & OEM warranty orders alongside B2C consumer repair leads — all managed through one platform.

What is the Bigfix GSP Program?

The Bigfix General Service Partner (GSP) program connects multi-brand repair shops and service centers to a managed pipeline of B2B insurance claim and OEM warranty repair orders, plus B2C consumer repair leads from nearby customers via the Bigfix Vault App. Partners get a dedicated order dashboard, repair management tools, billing & invoicing, staff certification and business insurance — all on one platform.

Who Can Apply

Any registered multi-brand repair shop or service center with verified technicians and basic repair infrastructure is eligible. Unlike the ASP program, GSP does not require single-brand OEM authorization — it's built for independent, multi-brand repair businesses.

Program Benefits

- B2B leads from insurers & OEMs (insurance claim + warranty repair orders)
- B2C leads from nearby customers via the Bigfix Vault App
- End-to-end repair management: job cards, tracking, technician assignment
- Digital billing & invoicing
- Staff upskilling & SSC/NSDC-aligned certification programs
- Access to an eshop for tools & genuine spares
- Useful software integrations for shop operations
- Insurance cover for your shop and technicians

How It Works

- 01 Apply Online**
Submit your service center details in a short application form (~5 minutes).
- 02 KYC & Onboarding**
Complete document verification, typically finished within 48 hours.
- 03 Receive Orders**
B2B orders from insurers/OEMs and B2C orders from nearby customers begin routing to your dashboard.

04 Repair, Grow & Earn

Execute repairs, bill through the platform, and grow your revenue with ongoing support.

Earning Potential & Fees

GSP partners typically earn **Rs. 3,00,000+ per month**, with partners commonly seeing up to **5X growth in monthly revenue** within their first year on the platform. Joining GSP involves a nominal one-time onboarding fee (unlike the free-to-join ASP and GIG programs), which covers full platform access, the partner order bank, and ongoing support — with no recurring monthly charges.

The Bigfix Network

450+	260+	2,05,310+	8,720+
B2B Clients	Cities Covered	Customer Engagements	Gig Workers

GSP Partners Across Karnataka & Andhra Pradesh

Bigfix's South India footprint spans Karnataka and Andhra Pradesh, with Bengaluru alone home to 90+ Bigfix network partners. GSP is actively onboarding multi-brand service centers in:

Karnataka	Bengaluru, Mysuru, Hubballi-Dharwad, Kalaburagi, Mangaluru, Belagavi
Andhra Pradesh	Visakhapatnam, Guntur
